

The CAC is committed to providing support services to all child victims of sexual abuse. We recognize that not every *Forensic Interview* will be done at the CAC; however, these victims are still eligible for services.

Advocacy: If you have a case that is going to court, the CAC will provide support for the family. If families have questions about the court process, they can also be directed to Jessica.

Therapy: The Family Advocate will follow up with all caregivers of victims to offer services or refer to services in the community. Fax or scan police reports to Jessica directly.

Contact Jessica Johnson, Family Advocate, jjohnson@cac-kent.org 616.336.5191
CAC fax number: 616.336.5193

Non-Emergent medicals: The CAC partners with the YWCA SANE program to conduct non-emergent medicals for victims of sexual abuse regardless of a disclosure. If you feel a child would benefit from this service, Law Enforcement or the family can call CAC Intake Coordinator, Hannah, directly.

Contact Hannah Lenz, Intake Coordinator, hlenz@cac-kent.org 616.336.4686

Problematic Sexualized Behavior: Reports of children 9 and under, who are acting out sexually, can be referred to the CAC for a screening and body safety counseling. You can let the family know that someone from the CAC will be following up with information and send the report over.

Contact Marian Anderson, Case Manager, manderson@cac-kent.org 616.719.4687
CAC fax number: 616.336.5193

Consultation: When unsure if a Forensic Interview needs to be scheduled, you are not sure the best time frame to schedule the interview, or you have a case that has extra complications, Interviewer Amy will work with the detective directly to determine next steps. We will provide Interviews for severe physical abuse or witness to violence/abuse on a case-by-case basis.
